

# Listening Session:

## Housing Affordability & Strengthening Seattle's Incentive Zoning Policy

### **Seattle is growing fast –**

We are building a sustainable city, but the benefits of this growth and investment may not go to the people who already live here. Working class households, people of color and immigrant families are being forced every day to relocate outside our growing city because housing costs are too high. We have to find ways to address this growth equitably and avoid displacement. Join Growing Together: Affordable Seattle Now Campaign and South CORE for a listening session with Seattle City Council Members.

**Monday, June 16<sup>th</sup>**  
**6:00 pm – 8:00 pm**

**Eritrean Community Center**  
**1954 Massachusetts Street**  
**Seattle, WA**
