Making Complex Collaboration Work
Converge for Impact
September 2016

We are delighted and honored that you are taking part in this important program. Whether you are a nonprofit executive, staff member, board member, funder or consultant, connecting in interactive conversations about a real, complex business situation is a relevant and enormously fun way to learn. We are thrilled to be led on this journey by our session presenters David Ehrlichman and David Sawyer.

David Ehrlichman is a Partner of [Converge for Impact](http://convergeforimpact.com) (convergeforimpact.com). Ehrlichman works to catalyze others to make their greatest contribution. Specializing in designing, launching, and sustaining impact networks, he has helped build networks across the environmental, healthcare, education, economic, and civic systems. He is currently the interim Network Manager of the [Santa Cruz Mountains Stewardship Network](#), and was previously the Network Manager and systems director of the James Irvine Foundation [New Leadership Network](#), a cross-sector network of 48 civic leaders for community revitalization in Fresno, CA.

David Sawyer is a Partner of [Converge for Impact](http://convergeforimpact.com) (convergeforimpact.com). Sawyer is a strategy guy for a better world, specializing in networks and design and systems thinking. He is active across all sectors and has played key roles in a variety of fields: education reform, national service, social entrepreneurship, initiatives for women and girls, venture philanthropy, and environmental preservation.

A notes section is included at the end of this packet. We encourage you to keep track of ideas that resonate with your experience. Participants will come away from this session with both experience and hard resources to take back to their organizations. Please see below for an encouraged reading list, and we thank you again for participating!
